Avoiding Identity Theft

- The Weapons of Fraud video
- Equifax breach
- Internet fraud protection tips

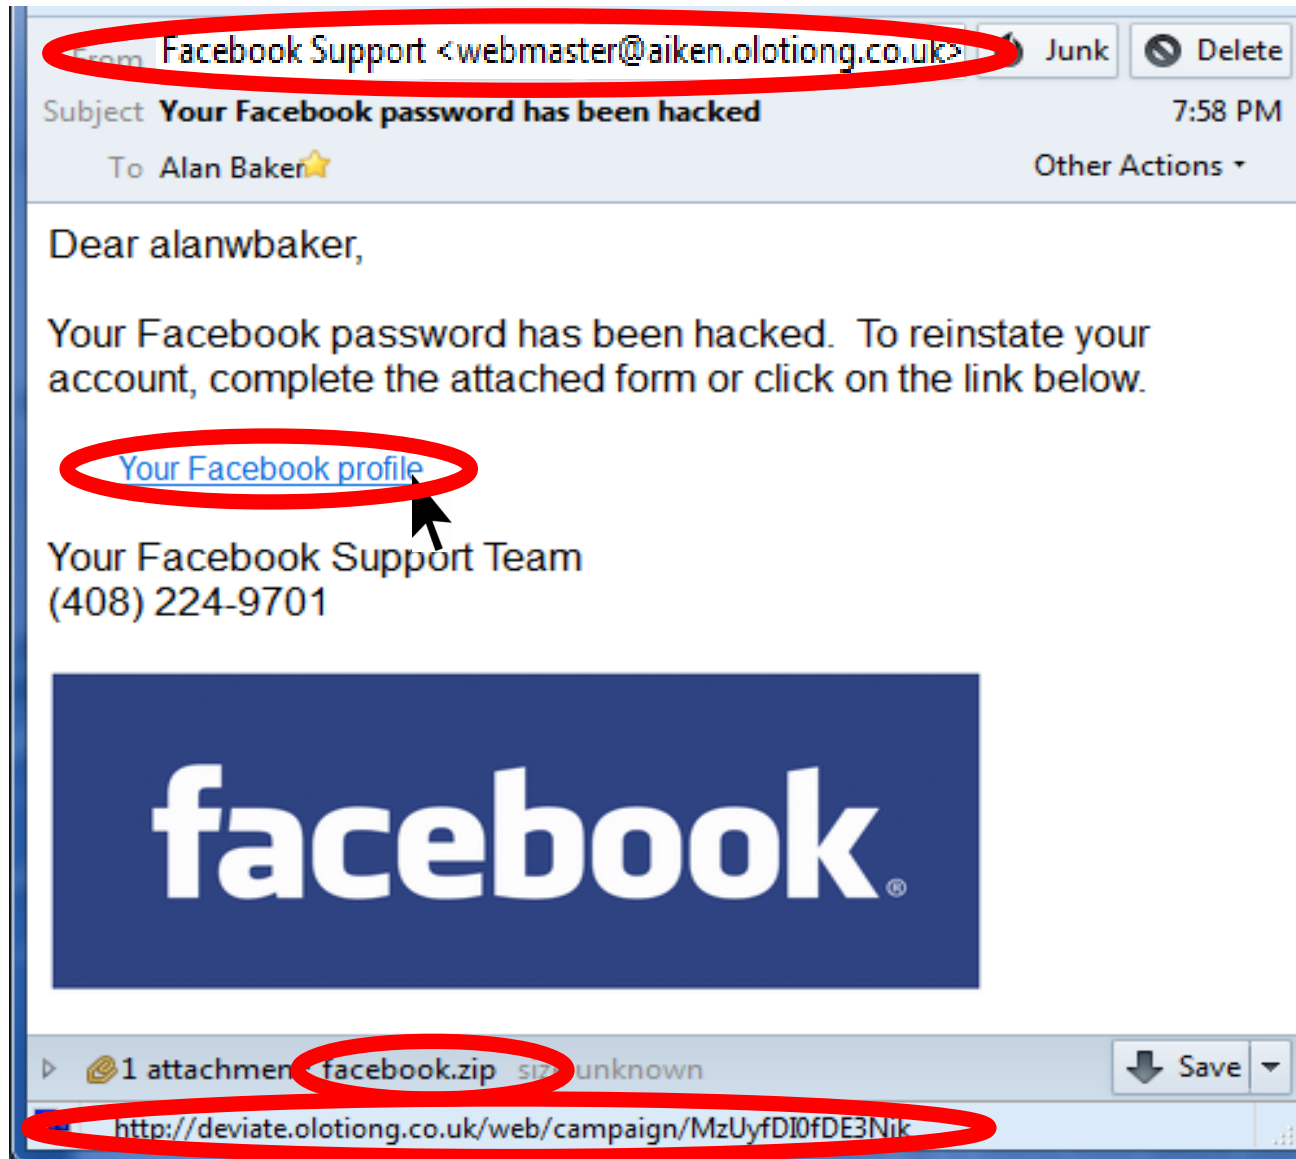

Top 3 Online Safety Practices (1)

Security Experts' Top 3	Non-Experts' Top 3	Safety Practices	Comments
	1	Antivirus software	Makes us feel secure but expands attack surface
	2	Strong passwords	Prevents dictionary attacks
	3	Change passwords frequently	Leads to weak passwords
		Password manager	Better than your memory
		Two-factor authentication	In addition to password
		Unique passwords by site	Prevents cross-site loss
		Software updates	Reduces attack surface
